

Product Features

Our Whynter Built-In Under-Counter Stainless Steel Wine Refrigerator offers premium quality and innovative design ideal for your wine collecting needs. Whether for the enthusiast or the connoisseur, this single zone compressor wine refrigerator provides premium and advanced wine storage functionality. The Whynter BWR-408SB can hold up to 46 standard 750ml wine bottles.

The powerful compressor cooling process offers optimum temperatures (low 40°F to mid 60°F) for red, white, and sparkling wines. The front ventilation design of this unit allows for flush with cabinet installation or simply freestanding usage. The premium appeal of this wine refrigerator features a substantial stainless steel trimmed door accented with a luxurious curved handlebar.

Designed with intuitive use in mind, this refrigerator comes equipped with a sleek touch screen control that lets you set the temperature to anywhere from 40°F – 65°F / 5°C – 18°C.
